

Functional Requirements Document (FRD)

Module: Account Management

Project: Core Banking System – Kongu Co-operative Bank (KCB CBS)

Prepared By: Karthick E

Date: December 2025

Version: 1.0

Account Summary

1. Introduction

The Account Summary screen allows registered users of Kongu Co-operative Bank Core Banking System (KCB CBS) to view their bank account details in read only mode.

2. Actors & Preconditions

- **Actors:** Kongu Co-operative Bank customers
- **Preconditions:**
 - ◆ User should already have an active bank account in Kongu Cooperative Bank
 - ◆ User should have signed up and logged into the KCB CBS Web Platform.

3. Business Rules

Business Rules	
BR01	The scene sequence/ user navigation should be as per the wireframes.
BR02	System messages (Alerts, Warnings, Success, Failure messages) should be as given in the Use case table.
BR03	Validation for each field should be done as per the instructions given in “Field Level Validations” table.
BR04	The user must have completed the first-time setup in the KCB CBS platform in order to log in successfully.
BR05	Customers cannot change their branch through the KCB CBS platform. Branch transfer requests must be initiated and approved at the bank branch.
BR06	If there is no customer-initiated transaction for more than 12 months, the account status changes to ‘Inactive’. Reactivation requires KYC verification at the branch.
BR07	If the user is inactive for 10 minutes, the system should log out automatically for security.

4. Functional Requirements

#	Label/ Field Name/ Data Type	Validation	Rule
Account Summary Screen			
FR01	Account Number (Read Only field)	NA	• The bank account number linked to the user’s KCB CBS profile will be displayed. • The field is non-editable (read-only). • Bank account number cannot be changed. • Only the last 4 digits in the account number are visible ; other digits are masked.
